

Beyond Love

Hold on to me, never let me go
We belong so far from here
Stay close to me, no don't leave my side
I see through your eyes

We will leap and find out, what the future holds
Let your body levitate, my hands holding yours

There're blue skies and dreams beyond love
New harmonies beyond love
We will find things no one believes, somehow
You'll lose all your fears beyond love
Shed your last tears beyond love
I hope that nowwe, we won't leave, oh no

Once we were lost, couldn't find our way
Used to lie and then betray

We will leap and find out, what the future holds
Let your body levitate, my hands holding yours

There're blue skies and dreams beyond love
New harmonies beyond love
We will find things no one believes, somehow
You'll lose all your fears beyond love
Shed your last tears beyond love
I hope that now we, we won't leave, oh no

All of your strength is in me
How long will it last? I don't know

There're blue skies and dreams beyond love
New harmonies beyond love
We will find things no one believes, somehow
You'll lose all your fears beyond love
Shed your last tears beyond love
I hope that now we, we won't leave, oh no.
