

OUT THERE

Maybe I will try now
To tell you why advert my eyes, when we're together
I hope I find, hope I can speak my mind
In perfect lines and simple rhymes, all you may treasure 'cause

Rather keep you further than to see you close this way
Never had the chance to tell you that I felt so, so frail

Somewhere, somehow, I'll be there
And I'll stay where I stand
Someday, one day I will find
I believe I can make it, I believe

Though it may look far now
Until it is over, there is still a hope in me
'cause in my mind, forces of nature blow
My fears away, my will and faith, closer together 'cause

Rather keep you further than to see you close this way
Never had the chance to tell you that I felt so, so frail

Somewhere, somehow, I'll be there
And I'll stay where I stand
Someday, one day I will find
I believe I can make it, I believe

So the sky will crack open when I close my eyes
The whole wide universe I will see inside
Lord, the beauty I will see
From out there, from out there, from out there

Somewhere, somehow, I'll be there
And I'll stay where I stand
Someday, one day I will find
I believe that I can make it, I believe

Closer I will get
The power I will feel
The beauty I will see from out there
